

## Forever After

## Paradise Lost

It's orchestrated by another hand  
Believe inferior dreams that I am  
Orchestrated I don't understand  
Belief increasing in me that I am

If only we could see and live the dream  
If only we could still believe the dream

Forever after  
Forever after maybe (sing)  
Forever After

Without frustration  
With no master plan  
With nothing left of the dream that began

If only we could see and live the dream  
If only we could still believe the dream

Forever after  
Forever after maybe (sing)  
Forever After  
Forever after  
Forever after maybe (sing)  
Forever After

If only we could see and live the dream  
If only we could still believe the dream

Frailty, frailty  
Say you love me, till I get back
