

## No Celebration

Paradise Lost

take my hand,  
hurray for the winters come...  
cease my plans  
excuse me from the scenes of old

i can meet you there? , i just don't care  
on this new years day  
with no celebration from me

understand  
there's comfort with the wealth of gold  
increase demands  
release me from the scenes of old

i can't make it clear you just won't hear  
on this new years day  
there's no celebration from me

i could see you there? , we just don't care  
on this new years day  
without hesitation  
there's no celebration from me
