

## Praise Lamented Shade

Paradise Lost

Never seen such doubt  
Never seen without  
Forever seemed so right  
Understand I try

Endeavour rests inane  
Takes us once again...

Somewhere in the air

The world can see a reason I believe  
The words deceive the reason I believe

Heaven seemed so right  
Understanding lies  
Hail the fallen grade  
Praise lamented shade

Somewhere in the air

The world can see a reason I believe  
The words deceive the reason I believe

So you want to show  
The only way you've known  
A truth for all who see  
A cue for all who know
