Sun Fading

Paradise Lost

Got a right to show you how I feel Got a right the truth I can't conceal Gotta lie to show you some appeal Gotta lie to cherish all that's real

Sun fades in some way
Enter tragedy
Some where there's some way
Like all you ever dreamed

Got a mind to show you how I feel Criticise the smallest of ordeals Gotta try to show you how to fear Gotta try to make you disappear

Sun fades in some way
Enter tragedy
Some where there's some way
Like all you ever dreamed

Sun fading Sun fading Sun fading
