

## Symbol of Life

### Paradise Lost

All alone beside myself  
All alone beside myself  
And I've troubles on my mind  
And I've reached the depths of life  
And I hear that deaths alright  
Still I'll wait for you to try

When the dreams have been and gone  
And the torment has begun  
My emotions run  
Can't get by with what I've got  
Always dwell on what I've lost  
Just a loaded gun  
A symbol of my life  
A symbol of my life

On the floor I crawl and writhe  
As the day turns into night  
I remove myself from sight  
And I reached the depths alright  
And I hear deaths part of life  
Still I wish that you would try

When a dream has been and gone  
And the torment has begun  
The rejections done  
I get by with what I've got  
Always aware if what I've lost  
Just a loaded gun  
A symbol of my life  
A symbol of my life

A symbol of my life  
A symbol of my life  
Nothing more  
Nothing more to say to me
