

## Abducted

Paragon

A beam of light out of the shadows  
Darkness casts a spell upon us  
Burning alien rays leading the blind  
Spellbound and frozen to ice  
Chained and hypnotized  
Madness is raging in our minds

Millions of miles in a blink of the eye  
The sense of time is gone  
Unknown dimensions - we're a part of the sky  
The forces of darkness have won

Abducted now  
Taken away into the night

The open gate - closed behind us  
A trail of light ahead of us  
The visions in our minds are running wild  
Screams of pain make us shiver  
Journey through an unknown river  
Nightmare and reality collide

Abducted now  
Taken away into the night  
Abducted now  
So far beyond of all the light
