

## Iron Will

Paragon

Stranded from the storm of time  
Right on boiling ground  
Guided by a secret sign  
Infecting all around

The warlords of the fire - the heroes of the myth  
All ancient has to die  
A force of destruction - the holy word made flesh  
Free from truth or lie

Born - to remain  
Here to stay and to reign

Iron will - forced evolution  
iron will - demons of times  
Raise your blades to kill!

Fates will meet eye to eye  
On the judgement day  
Victory will wait for thee...  
The weak awaits decay

None can stop the horde - a scream against a sigh  
A carnage in the night  
Blood and gore remain - conquered motherland  
Souls into the light

Rule or obey  
Death is the end of all ways

Iron will - forced evolution  
Iron will - demons of time  
The will to survive - determination  
Iron will - demons of time  
Raise your blades to kill!
