

## Legions Of Metal

Paragon

Visions of the moment in my bloodred eyes  
No time to repent - the scars on my face  
It's waiting for you  
It's waiting for me  
Beyond the black  
Lies the thing that should not be  
...Should not be  
Up from the ashes  
We shall arise  
Out of the underground  
Into the night  
United forces  
Hearts filled with pride  
Legions of metal  
Forever ride  
Raindrops on black leather  
The glittering steel  
Through the smoke we spot the enemy  
The guns are loaded  
Swords sharpened twice  
Riding down the road  
Armed and ready to fight  
...to fight  
[Chorus]  
Together we ride  
Through storm an rain  
United we strike
