

Darkness came and woke my neighbour
Told him: Stand up, kill your son!
Darkness came and woke my neighbour
Told her: Stand up, kill your mum!
Darkness came broke in my dreaming
Deep into my silicon brain
Darkness came and split my eyes in
Darkness came to wake me up

I watch you sleep
I rule your dreams
I am the other face
I am the other face
I am the real one

Daylight came and burned my neighbour
Told him: Stand up, raise a son!
Daylight came and blazed my neighbour
Told her: Stand up, kiss your mum!
Darkness came in out of nothing
One cloud of night , one cloud of sin
Darkness came, temptation came
Darkness came to take my soul

I watch you deep
I am your fears
I am the other face
I am the other face
I - dark - don't die

I watch you weep
I send you tears
I am the other face
I am the other face
I am your god
