

Into The Ice

Paralysed Age

White painted deserts in colours of sweet
Pictures of living long for the heat
Lost in a nightmare of your own soul
Got in a deep trance like in an icy hole

Fall into the ice

Me and my soul
Into the ice

I stumbled through my own agony
My fears are timeless reality
Now it gets colder come take my hand
Sweet glance of darkness raise my own end

Fall into the ice

Me and my soul
Into the ice

Tears of ice run down your face
You've lost your hold, you've lost your trace
Distant voices like pearls of rain
Pray for you again and again

Tears of ice run down your face
You've lost your hold, you've lost your trace
Distant voices like pearls of rain
Pray for you again and again

Fall into the ice

Me and my soul
Into the ice
