

Adore

Paramore

1. I don't mean to run,
But every time you come around i feel more alive than ever
And i guess it's too much,
Maybe we're too young and i don't even know what's real
But i know i've never wanted anything so bad,
I've never wanted anyone so bad

R: If I let you love me,
Be the one adored,
Would you go all the way?
Be the one I'm looking for
If I let you love me,
Be the one adored,
Would you go all the way?
Be the one I'm looking for

2. Help me come back down,
From high above the clouds you know I'm suffocating but I blame this town
Why do I deny,
The things that burn inside down deep I'm barely breathing but you just
see a smile
And I don't want to let this go,
Really I just want to know

R: If I let you love me... (2x)

If I let you love me,
Say the word adored,
Would you go away?
be the one i'm looking for
