

Circle

Paramore

Take this time to realize
that you always shut your eyes
in the midst of trial
and everything is always right
and I think that it's time
this battle must be won
but you pushed it aside
pushed it aside
pretend that it's gone

This circle never ends
and it's time you just face it, don't pretend
that it's over
this circle never ends
and it's time you just face it, don't pretend
that it's over

Take this time to realize
that you always force a smile
in the midst of trial
and everything is always right
and I think that it's time
this battle must be won
but you pushed it aside
pushed it aside
pretend that it's gone

This circle never ends
and it's time you just face it, don't pretend
that it's over
this circle never ends
and it's time you just face it, don't pretend
that it's over

And it never ends
it never ends
and it never ends
and it never ends
no, it never ends

This circle never ends
and it's time you just face it, don't pretend
that it's over
this circle never ends
and it's time you just face it, don't pretend
that it's over, it's over
