

Decoy

Paramore

1. Close your eyes and make believe
This is where you wanna be
Forgetting all the memories Try to forget
love cause love's forgotten me
Well hey, hey baby it's never too late
Pretty soon you won't remember a thing
And I'll be distant as stars reminiscent
Your heart's been wasted on me

Ohhhohhh-oh-oh

R: You've never been so used
As I'm using you
Abusing you My little decoy
Don't look so blue
You should've seen right though
I'm using you My little decoy

My little decoy (2x)

2. Live a life inside a dream
Time is changing everything
Forgetting all the memories And I'm forced into
you just cause you're into me
Well hey, hey baby it's never too late
When I'm gone you won't remember a thing
But I can't stay and no, I won't wait
I was gone from the very first day

Ohhhohhh-oh-oh

R: You've never been so used...

*: Ohhh-Awww-Awww
I'm not sorry at all
(not sorry at all, not sorry at all)
no, no
I wont be sorry at all
(not sorry at all, not sorry at all)
no, no
F(hold)
I'd do it over again

My little decoy (2x)

Don't look so blue
My little de--coy
You should've seen right through
My little de--coy
You've never been so used
My little de--coy
As I'm using you
My little de--coy
