

## In the Dark

Parasite Inc.

"Never... never again",  
I thought and i forgot:  
That you're a part of me 'til the day i'm gonna rot

I hate... i hate you but i need you to survive  
Cause in... in this times you make me feel alive

Again you make me crawling  
Why don't you end it now?  
This endless nights are hurting  
And the agony is on to break me down

Give me a dream of reasons - inside I live apart  
With you beside me... once again I am the last one in the dark

So you... you stay with me and the days are going on  
I tried and i refused but I know that you have won

How can i bear it?  
How shall i spin?  
This life seems so much better with the fog you drown me in

Hold... kiss... kill... me

And in the end i'm falling  
Finally it ends now  
This endless nights are over  
In this life where you have always caught me down  
You gave me dreams of reasons  
Inside i lived apart  
With you beside me...  
Finally i am last one in the dark

...in the dark
