I Want You

Paris Hilton

Excuse me I think I seen you on the dance floor
Excuse me I think there playin' one of our songs
I seen you you've been here a lot of times
And you've been on my mind cause baby your just so damn fine
What do you say
What will it take
To make you see that I'm not playin'

I want you
and I think you should know
I want you
and I wont let you go
Cause I'm the kind of girl who likes to tell you what I want in
 life
Get you right into things wont you like that anyway
I want you
so before you go home
And you leave here alone
I thought you should know

I'm not playin'

I want you
and I think you should know
I want you
and I wont let you go
Cause I'm the kind of girl who likes to tell you what I want in
 life
Get you right into things wont you like that anyway
I want you
so before you go home
And you leave here alone
I thought you should know
