

# Don't Close Your Eyes

Parkway Drive

The warmth of your embrace  
Has lifted me from the ground  
The strength you've given me  
I can never truly thank you  
Through the darkness  
I found you by my side  
And I'll make this promise to you  
I will never let you down  
This is for every hour  
This is for every second  
This is for every moment  
That we have shared together  
Sky blue days burn through  
I refuse to let our flame fade  
Every scar burning bright tonight  
I'd give my heart for you  
I'd give my strength for you  
I'd give my everything  
I'd give my life for you  
Tonight will stand as a testament to hope  
Every scar, burning bright  
I will stay by your side  
Don't close your eyes  
Tonight we burn together  
My true friends, you mean the world to me  
Your friendship means everything  
Tonight will stand as a testament to hope  
Forever beating on
