

## Dream Run

## Parkway Drive

Do you remember all those nights  
When we stood side by side  
And we said, "we'll save the goodbyes"  
The night is young  
We still have time

In my dreams I see it ending  
I see the sky descending  
And I let the sadness empty from my heart  
'Cause in my dreams I feel I'm falling  
And I hear the darkness calling  
Don't wake me up until the morning's light

Because I've never felt more alive

Do you remember all those nights  
When we stood side by side  
And we said, "we'll save the goodbyes"  
The night is young

Well I never want to press rewind  
Every mistake that lead us here  
I wouldn't change for anything  
Dear girl, there is a world that stands between us and  
them  
See this was never about giving up, just giving in

Because you only live once  
But you spend your whole life dying  
So when it all comes crashing, know you're not alone

We welcome death with all our sins  
There is no fear when this life ends

Do you remember

Do you remember all those nights  
When we stood side by side  
And we said, "we'll save the goodbyes"  
The night is young  
We still have time

'Cause I've never felt more alive
