

# Hopeless

Parkway Drive

Tear my heart from my chest  
Still warm in my hands  
Feel the life drain away  
This distance is staggering  
Stealing the air from my lungs  
Choking me where i stand  
Hopeless, just one last kiss  
You sound so close  
I can almost feel your breath  
Too close to touch the fragment of my memory  
Tormenting me forever  
Haunting me forever  
Stretching towards forever  
Each second seems like a year  
And this eternity is tearing me apart, tearing me apart  
Hopeless  
Victim of my own human desire  
Love is a demon sent to destroy me  
I never knew distance could kill
