

Do you remember the times when,  
We didn't care about nobody else.  
We got into each other's hair and nails,  
And all that dirty stuff.  
That lasted long enough.  
We entered this thing!  
Called love! What do you think went wrong?

But since you have never given me,  
What you think is good enough  
To all those you're going out with.

Look what you're doing to me girl.  
I don't know if you still love me  
I do  
I'm just another lonely boy.  
Running all the time,  
While you're just wasting time.  
You're just wasting time

And now, I'm far enough from you.  
Don't you think that you're just through  
go fooling  
Around with me.

Fresh fruits on and on get cold  
Get off my side  
I don't need booze  
When I got a girl like you!
