

High

Parokya Ni Edgar

Why wont you stop and look around
And think a while
Take a deep breath
And try to find your smile
Baby, you've been living like a
"suicidal moment night"
Don't go telling me that life ain't right

Come on now, it cant be that bad
Come and reach the sky and start living high...high...high

I kno that life can really suck sometimes
After leaving u in the dark with a messed up mind
Come with me and leave it this behind
Its better right now coz we ain't got much time

Come on now, it cant be that bad
Come and reach the sky and start living high...high...high
