

# High

Parokya Ni Edgar

Why wont you stop and look around  
And think a while  
Take a deep breath  
And try to find your smile  
Baby, you've been living like a  
"suicidal moment night"  
Don't go telling me that life ain't right

Come on now, it cant be that bad  
Come and reach the sky and start living high...high...high

I kno that life can really suck sometimes  
After leaving u in the dark with a messed up mind  
Come with me and leave it this behind  
Its better right now coz we ain't got much time

Come on now, it cant be that bad  
Come and reach the sky and start living high...high...high
