

## Light Up Gold II

Parquet Courts

Twice in.. comes knocking on my door  
She's spinning in a... fashion gazing before  
Sparkling recognition is to throw the dice first but  
I don't think of something  
Where is the curse because

Chorus:

Light up gold was the colour of something I  
Was looking for  
Light up gold was the colour of something I  
Was looking for

Steady was the pace that we're not doing this way  
Sitting like a miner in the consciousness to breath  
..in the rivers from a.. field  
Trying over something warm and real because

Chorus:

Light up gold was the colour of something I  
Was looking for  
Light up gold was the colour of something I  
Was looking for  
Yeah light up gold was the colour of something I  
Was looking for  
Light up gold was the colour of something I  
Was looking for
