

# Electricity

Parralox

You turn me on and on, you know I like it  
Promise that you'll never stop, dontcha fight it  
When you know you are the one, with the touch  
Please dont ever ever stop, it means so much  
You turn me on and on, you know I like it

Shine your light on me  
Electricity

Just hold on, its okay  
The rain will fall another day  
Don't be scared I'm always there  
I'll always stand right by your side

Tenderness is what youve got, that's a given  
Even though I know youre wrong, you are forgiven  
Sometimes I get mad I know / it's a fault  
Then it hits me hard just like / a thunder bolt  
Now you got me in the mood, in the rhythm

Wonderful and free  
Electricity
