

# Sharper Than A Knife

Parralox

It was only a matter of time  
Before I had to say goodbye  
Johnny 7 knows I'm right  
We talk about it all the time

I told you lies, I even compromised  
I tell you  
I'll never feel that way again

Why did you try to change me I thought you'd realise?  
It took me so long, but now that you're gone I'm fine!  
You hurt me so bad, I don't know if you can understand  
That your love cut me sharper than a knife  
That your love cut me sharper than a knife

Now I hope you understand  
Biggest person in the land  
That is something you are not  
My self respect is all I've got
