

## Coffee Breath

Parry Gripp

Well, you walk into a room and people run and hide  
You've got coffee breath  
Sniffing on a flower, Wilson dies  
You've got coffee breath

Out in the street, people that you meet  
Buddy, they're scared to death  
La, la, la, la, la, la, la  
You've got coffee breath  
I said, you've got coffee breath
