Good Woman, Good Truck, Good Life

Parry Gripp

A workin' man, he don't need a lot But he treasures those few things that he's got It's the same in the good times It's the same through the strife Good woman, good truck, good life

Well, it's cold and it's lonely out on the road But a man's got to haul that heavy load From the day he is born 'til the day that he dies Good woman, good truck, good life Good woman, good truck, good life
