

Young Girl Talking About Herself

Parry Gripp

She's a young girl
Talking about herself (You can't stop her)
She's a young girl
Talking about herself (She keeps on talkin')

She's gonna break your heart
And tell the world about it
She's gonna break your heart

He was like, she was all, he was all, they were like
They were all like, oh my God, like totally
We were like, I was all, they were all, he was like
She was like all totally like, oh my God

He was like, she was all, he was all, they were like
They were all like, oh my God, like totally
We were like, I was all, they were all, he was like
She was like all totally like, oh my God

He was like, she was all, he was all, they were like (Young girl talking about herself)
They were all like, oh my God, like totally
We were like, I was all, they were all, he was like
She was like all totally like, oh my God

Young girl (She's a young girl)
Talking about herself (Talking about herself)
