

## Young Girl Talking About Herself

Parry Gripp

She's a young girl  
Talking about herself (You can't stop her)  
She's a young girl  
Talking about herself (She keeps on talkin')

She's gonna break your heart  
And tell the world about it  
She's gonna break your heart

He was like, she was all, he was all, they were like  
They were all like, oh my God, like totally  
We were like, I was all, they were all, he was like  
She was like all totally like, oh my God

He was like, she was all, he was all, they were like  
They were all like, oh my God, like totally  
We were like, I was all, they were all, he was like  
She was like all totally like, oh my God

He was like, she was all, he was all, they were like (Young girl talking about herself)  
They were all like, oh my God, like totally  
We were like, I was all, they were all, he was like  
She was like all totally like, oh my God

Young girl (She's a young girl)  
Talking about herself (Talking about herself)
