

Low Battery

PARTYNEXTDOOR

My battery's low, but I hope my messages come through
Because I need answers from you
I need answers from you
I got questions for you
So I know you got answers for me
Have you ever lied?
It's a dumb question, baby girl, because everybody lies
But did you lie with someone else, baby?
Watchu tryna do? Are you tryna hurt my ego?

Look you know it's actually on a hunnid
But babe right now it's on a zero
I'm not gonna ask you was it worth it
'Cause I know I'm not perfect
We are young and you're still searching, and uncertain
My heart's been broken before
This a feeling I already know
I just want the truth, it's just between me and you
They don't even know, they don't even have a clue
Confess, confess, girl
Need to know facts
Confess and text me back, don't hold back

My battery is low, but I hope my messages come through
Because I need answers from you
I, I need answers from you
I got questions for you
So I know you got answers for me
Have you ever lied?
It's a dumb question, baby girl, because everybody lies
But did you lie with someone else, baby?
Watchu tryna do? Are you tryna hurt my ego?

Listen, you coulda said you want to see different people
Never knew that your love was so lethal
Shot, shot, shot, it's a shot, baby
Kept your secrets on the D-low
Lowkey like a C-note
No need for the long-talking, girl
I just want the truth
Face it, reality, there's no getting back with you
Give me the truth, it's just between me and you
They don't even know, they don't even have a clue
Confess, confess, girl
Need to know facts
Confess and text me back, don't hold back

Cause my battery is low but I hope my messages come through
Because I need answers from you
I, I need answers from you
I got questions for you
So I know you got answers for me
Have you ever lied?
It's a dumb question, baby girl because everybody lies
But did you lie with someone else?

Someone else

You must have wanted someone else
My battery's on low and I hope my messages go through
