

Wheels Of Steel

Passafire

When you had this begin
And the pain is real
I'll be there in the got away
Right behind the wheel

When you're tired to make it
And the wheel is real
I'll be there in the got away
On the wheels of steel

Tell me what you want
Tell me what you need inside
Tell me what you're after
Cause I wanna be the one
Really wanna see inside
Wanna hear the laughter
Tell me if you wanna do or I want with you something unconditional
I know is hard to find, cause you're in my mind

You're in my mind so many times
I took your heart and made it mine, oh mine

Give me everything
Like the way you bring so bright now
I wanted you to bring every little thing alright now

Maybe if you want to be first, don't stay over there to long

Maybe just not there a care but the rest is the best love song

You're in my mind so many times
I took your heart and made it mine, oh mine

When you had this begin
And the pain is real
I'll be there in the got away
Right behind the wheel

When you're tired to make it
And the wheel is real
I'll be there in the got away
On the wheels of steel

Show me what you need
Wanna see if we could make it
To the end is extreme but american dream don't fake it

Tell me if you wanted to or I want with you something unconditional
I know is hard to find, cause you're in my mind

You're in my mind so many times
I took your heart and made it mine, oh mine
You're in my mind so many times
I took your heart and made it mine, oh mine

When you had this begin
And the pain is real

I'll be there in the got away
Right behind the wheel

When you're tired to make it
And the wheel is real
I'll be there in the got away
On the wheels of steel
