Standin' in the doorway, forgot to say one thing You've always had the power to lift my wings I know I shouldn't need so much, an' we could say goodbye Oh yes I am a dreamer, I still see us flyin' high

We can start over, darlin' it's clear Love is what brought you here

Don't Walk Away
Oh, to see if I follow
Don't Walk Away, victory's hollow
Been that road, it didn't take us home
Turn around, you won't be alone

Somethin' brings us together, keeps tearin' us apart The wounded are much wiser, we'll just take it from the start

We can start over, darlin' it's clear Love is what brought you here

Don't Walk Away
Oh, to see if I follow
Don't Walk Away, victory's hollow
Been that road, it didn't take us home
Turn around, you won't be alone

We can start over, darlin' it's clear Love is what brought you here

Don't Walk Away
Oh, to see if I follow
Don't Walk Away, victory's hollow
Been that road, it didn't take us home
Turn around, you won't be alone
Don't Walk Away
Don't Walk Away!

Oh, to see if I follow
Don't Walk Away, victory's hollow
Been that road, it didn't take us home
Turn around, you won't be alone
Don't Walk Away
Oh, to see if I follow
Oh, Don't Walk Away, Don't Walk Away
Been that road, it didn't take us home
Turn around, turn around, you won't be, you won't be alone
