

# Never Wanna Leave You

Pat Benatar

Never could say what I wanna say  
Never could do what I wanna do  
Never could believe you, if it's true  
Never could, never would, you make it so hard  
I never wanna leave you

I'm always right, you're never wrong  
We change the tune but not the song  
Over and over  
'Til it's done, it's never done, never done  
You make it so hard  
Never wanna leave you  
I never wanna leave you

Movin' together, comin' apart  
You're what I need, I'm what you want  
Never could refuse you from the start  
Never could, never would, never could  
You make it so hard

Never could say what I wanna say  
Never could do what I wanna do  
Never could believe you, if it's true  
Never could, never would, you make it so hard

I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
Never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna leave you  
I never wanna
