

## Finder's Keepers

Pat Green

Stay, won't you stay, please don't throw this all away  
You're out of daydreams girl, but we've got tonight  
You've been done so wrong but I can do you right  
And there's something for you and there's something for me  
So take all you want, and take all you need

He let you go, now here we are  
And it's finder's keepers when it comes to the heart

Day after day, I've waited for the chance to say  
Love can be a shelter, but it can be a storm  
My love's the kind that keeps you safe and warm  
And it's waiting for you so baby take it from me  
Everything you want, everything you need

He let you go, now here we are  
And it's finder's keepers when it comes to the heart  
(2x)

Yeah it's finder's keepers when it comes to the heart
