

Temporary Angel

Pat Green

Well I believe in hope and marriage
Forever and I do
But love suffers pain when you try to hard
And tonight we're living proof
But if we fell in love
We can fall in love again
There is no doubt we can work it out
Find a way to fall back in
Do you remember when I met you
What I whispered in your ear

Be my temporary angel
And I'll be your love for just one day
Hold me for the moment
Let the moment fade away
When you wake up the morning and your heart tells you stay
Be my temporary angel forever
When forever comes our way

We can start this thing all over
Let tomorrow win its turn
Give back the past, it'll never last
Strike a match and watch it burn
Do you remember when I met you
What I whispered in your ear

Be my temporary angel
And I'll be your love for just one day
Hold me for the moment
Let the moment fade away
When you wake up the morning and your heart tells you stay
Be my temporary angel forever
When forever comes our way

Close the door and turn the lights down
Let it all come down to right now

Be my temporary angel
And I'll be your love for just one day
Hold me for the moment
Let the moment fade away
When you wake up the morning and your heart tells you stay
Be my temporary angel forever
When forever comes our way
(2x)
