

Someday

Pat Monahan

I am barely stable
I am afraid to be alone
I am sorry that I always enable
And every day I try to find another way to you

I can admit to my addictions
And wish I could be a better friend
I am three kinds of crazy
And every day I try to find another way to you

Someday we'll be together
One day you'll be back in my arms again
Someday I will be where I belong
I've waited so long for someday

I know who's to blame and that's a shame
'Cause I know in the end it doesn't mean a thing
I am convinced that I'll be back again
And when I do I swear to find another way to you

Someday we'll be together
One day you'll be back in my arms again
Someday I will be where I belong
I've waited so long for someday

Life is to borrow
You were just a dream along the way
Life is sweet sorrow
There's always tomorrow
There's always someday

Someday we'll be together
One day you'll be back in my arms again
Someday I will be where I belong
I've waited so long for someday

Someday we'll be together
One day you'll be back in my arms again
Someday I will be where I belong
I've waited so long for someday
