

# Crash And Burn

Pat Travers

Well some see this life as nothing more than pain,  
It's pay out this and line up here,  
It's all just too insane...  
Well I feel the blues a coming down like rain...  
My feelings are so complicated I, wish I could explain...

Don't have two words, for the way I feel, I know I really need someone  
And I need something that is real

But we... Can't... Stop...  
This... World... From... It's...  
Crash and burn  
It's crash and burn

Well Lonlieness becomes a way of life,  
And you turn on your tv set,  
Too shine out all the strife,  
But there are things that help to ease the pain,  
Well you get that call, he guarantee's to paralyze... your brain

Don't have two dreams... For the way you feel...  
You know it's really all you need to, pretend that it's...  
Real...  
But we... Can't... Stop...  
This... World... From... It's...

Crash and burn  
It's crash and burn

But... We... Cant... Stop... this... World... from... it's... Crash and Burn  
...  
It's Crash and Burn! well some see this life as nothing more than pain,
