

Anti-Everything

Patent Pending

So what does she do when she was all alone
She took a baseball bat to her telephone
Small town girl verse the whole wide world
She's anti-everything today

Well she's been working up this reputation of an x13 infatuation
Now she's giving up her motivation for a black backpack full of her frustration

She hates the punk rock
The latest of trends in fashion
She hates the movies
She hates all of us with passion

Why she loves to hate ain't nobody knows
She might hate this song but that's how it goes
When you hate everything
you just want everyone to know

So Katie be honest
I know you don't want this
There's no doubt that you found out
That you could live without this
So what does she do when she was all alone
She took a baseball bat to her telephone
Small town girl verse the whole wide world
She's anti... Woah!
She's anti-everything today

Now she's had enough of her social status
You can't care much when nothing matters
She's been giving up
It's sad to say that she wants what she needs
I HATE THIS PLACE!

She hates the hip-hop
Celebrity blogs and gossip
She hates the parties
The drama she's always caught up

Why she loves to hate ain't nobody knows
She might hate this song but that's how it goes
When you hate everything you just want everyone to know

So Katie be honest
I know you don't want this
There's no doubt that you found out
That you could live without this
So what does she do when she was all alone
She took a baseball bat to her telephone
Small town girl verse the whole wide world
She's anti... Woah!
She's anti-everything today

Why she loves to hate ain't nobody knows
She might hate this song but that's how it goes
When you hate everything you just want everyone to know
