

# Dance Till We Die

Patent Pending

Ain't nobody gonna leave this place alive  
We never should have come here alone  
I can hear them screaming we're a long, long way from home  
It's a shame but I believe they're not gonna let us leave  
And we'll never make it out on our own  
We wrote our names in stone  
And tonight's too late  
We're gonna move til we die on this dance floor baby  
Let it out, ain't nobody gonna leave this place alive  
We're gonna move til we die on this dance floor baby  
Let it out, ain't nobody gonna leave this place alive  
We don't care bout the world out there  
We've made this bed,  
We've become the living dead  
We're gonna move til we die on this dance floor baby  
Let it out, ain't nobody gonna leave this place alive  
Baby I don't think it's a show  
I don't understand the power but we've only got an hour to go  
A fall to circumstance  
Yeah we never had a chance  
But I guess that this is just how it goes  
We wrote our names in stone  
And tonight's too late  
We're gonna move til we die on this dance floor baby  
Let it out, ain't nobody gonna leave this place alive

We're gonna move til we die on this dance floor baby  
Let it out, ain't nobody gonna leave this place alive  
The door is locked  
The floor is spinning  
We can't run, we're done  
There's no beginning  
And the dancing dead are taking over now  
We're never gonna make it out  
We're gonna move til we die on this dance floor baby  
Let it out, ain't nobody gonna leave this place alive
