

Let Go

Patent Pending

You're dead to me
Still can't believe that's what you said to me
Now girl we're ancient history
The story book ended the moment you walked on me
So I left it all in the past
I thought you'd be forever but you happened so fast (so damn fast)
If life is like the weather then the weather forecast is calling for
better than your skank-y-ass (hmph)

Chorus

You call me when you're drunk and say you're going insane without me
Oh my, how the times have changed
I let go (he let go) I let go (he let go) because the devil in you is
not the devil I know
We're in the fall out, the sum of your lies
But now I'm calling you out yeah so don't even try
I let go (he let go) I let go (he let go) because the devil in you is
not the devil I know
I let go, go, go

You swear you told the truth
But I know it's not the truth because it's coming from you
And honestly your honesty has never been true
So go and raise your finger and you say 'fuck you' fuck me' 'fuck you
,

Yeah I let you go
You're not my Juliet, I'm not your Romeo
But you still got stars crossing over you though
For lack of better terms you always act a ho (that's right)

Chorus

You call me when you're drunk and say you're going insane without me
Oh my, how the times have changed
I let go (he let go) I let go (he let go) because the devil in you is
not the devil I know
We're in the fall out, the sum of your lies
But now I'm calling you out yeah so don't even try
I let go (he let go) I let go (he let go) because the devil in you is
not the devil I know

No, no I won't give in
I know exactly where them hands have been
Beg me to stay then away she go
Like the wind she blows
She's a ho

Chorus

You call me when you're drunk and say you're going insane without me
Oh my, how the times have changed
I let go (he let go) I let go (he let go) because the devil in you is
not the devil I know
We're in the fall out, the sum of your lies

I'm calling you out yeah so don't you dare try
(He let go) I let go because the devil in you is not the devil I know
I let go, go, go
