

She Only Wants My Blood

Patent Pending

That's my girl, she's my cut throat baby
She's in my blood and she drives me crazy
Feeling paranoid, still she fills the void
I'm destroyed, but I don't let it phase me
It's hard to hear her when she says I love you
With her teeth in my neck, love so true
Blood that she demands, friends don't understand, it's out of my hand
But they don't see what I do
Oh I know that I'm fading faster
Is it the love or the blood that she's after
My vampire love
There's a hole in my heart
And two holes in my neck
This vampire life hasn't killed me yet
She's not the girl that I thought that she was
She only wants my blood, but I love her
By the way she's a beauty school dropout
It's hard to pass when you only want to learn about
Black hair dye, circles under eyes, no disguise,
As if they'd never find out
So baby don't cry
At the sight of sunlight
Always by your side, you can bleed me dry
I won't try and stop you cause it's alright
Oh I know that I'm fading faster
Is it the love or the blood that she's after
My vampire love
There's a hole in my heart
And two holes in my neck
This vampire life hasn't killed me yet
She's not the girl that I thought that she was
She only wants my blood, but I love her
I'm AB positive
Don't be so negative
I'm a universal donor baby
I just want to give you all of my love
She only wants my blood
