

# We're Freakin' Out (Map To Tahiti)

Patent Pending

What good is living the dream  
If I'm living it without you?  
Well, maybe it's not as simple as it seems  
We lost ourselves back there for a minute or two  
It's okay, we all fall down,  
But baby, I was made for me and you.  
23 more days  
This dark haze  
Living life like a mental case  
The letter reads "dear, I'm worried  
I fear that every single hour I'm away  
This year is another I spend alone."  
Pretend, put it in a box  
Don't break, just bend  
It's killing me to see  
Killing me careless  
Killing, can't bear this  
You're not alone in this  
And I'm not letting go  
We fight for our own through this  
And finally we know  
We're freakin' out  
We've lost all control  
We're losing our minds  
But we know in our soul  
In all that we say  
And all that we do  
If ever we fall,  
Just fuck 'em all  
'cause every dream I dream,  
I dream for you  
These kids are all kill,  
No thrill  
Counting every single second till  
The bridge has been burned  
The engine won't turn  
And every single day  
Is another lesson I've learned  
From past mistakes  
And bones I break  
Another week away  
And I've learned  
To take control (learned to take control)  
So let's get in the boat  
And let's sail away  
Leave this world for a couple of days  
If I never step foot on this shore again  
Know I'm living life  
Right like I know we can  
'cause we'll never know if we don't go  
I know every dream I dream belongs to  
Every dream I dream,  
I dream for you.
