

Fifth Element

Pathfinder

You're lost! Beyond your fucking mind
Beyond your fucking dreams
Your soul and world are mine.
No! I'll crash you very soon forever by the call of Fifth Element

The world is waiting for the rise
We're stronger every day by the blood of all battlefields
The flame of hope will never die
Until we will keep the might of Fifth Element in our hands

I call the Wind!
By the whisper wild spells of the storm
A tornado has come with the mighty dragon's roar!

I call the Water!
By the magic dance of the rain
I divide ocean's seas by the hydrokinetic's scream!

I call the Fire of Hell!
By the power of immortal flames
Which will burn in my veins till the end of all days!

I call the Quake of Earth
By geokinetic waves
An armaggedon is near, 'cause the Metal is calling my will!

Metal is eternal
Like Earth, Fire, Wind and Water
Fifth element in the space-time
Ultra power for my brain

Metal feeds my fantasy
Makes me master of my wild dreams
Like Earth, Fire, Wind and Water
Super Metal arms my will

You fool!
I live inside your head
I live inside your mind
My death will be your end

Die!
You lost beyond the space
You lost beyond the time
Let's fight in the reality

Metal shines on our steel
We keep the Metal all the time deep inside our hearts
The Art of Metal brings hope of glory
Like the sunrise brings the promise of a new day

I call the Fire of Hell!
By the power of immortal flames
Which will burn in my veins till the end of all days!

I call the Metal!
By the sacred spells of my will

I'll never give up! I'll be always ready to fight!

Metal is eternal
Like Earth, Fire, Wind and Water
Fifth element in the space-time
Ultra power for my brain

Metal feeds my fantasy
Makes me master of my wild dreams
Like Earth, Fire, Wind and Water
Super Metal arms my will

Soon we'll cross the sphere of last pain
Immortal life on dragon's spine
And then we fall forever and once again
Beyond the space, beyond the time

Fly my army of astral planes
To highest spheres of consciousness
That's what you dream about
That's what you're fighting till death
It will be soon crowned with success

Metal is eternal
Like Earth, Fire, Wind and Water
Fifth element in the space-time
Ultra power for my brain

Metal feeds my fantasy
Makes me master of my wild dreams
Like Earth, Fire, Wind and Water
Super Metal arms my will

And soon we'll cross sphere of last pain
Beyond the space, beyond the time..
We'll get back life...
