

# Ready To Die Between Stars

Pathfinder

Find us in the darkness  
We're running rage and madness  
Swords like sonic shadows  
We fight! We crash! We rule!

Falling into abyss  
We found here what we promised  
The last hope for the Kingdom  
Fifth element for the World

Metal is that power  
Victory will be ours  
When the sunrise lights the Hell  
We'll rise! We'll rise to attack! We'll rise

Metal is forever  
And unite us here together  
Metal is the pathway  
Let's ride! Let's live this way

We give you mental power  
Pure elemental wisdom  
Energy of destruction everywhere

Deep inside of our hearts beat sounds of heavy metal  
We are ready to die between stars  
Join the Army of Light and never be forgotten  
We are ready to strike

Cast the spell of Water  
Cast the spell of Earth  
Be ready for the slaughter  
Metal to the death

Burn with spells of Fire  
Fly with spells of Wind  
And you only will admire  
When the Metal gain your will

We give you mental power  
Pure elemental wisdom  
Energy of destruction everywhere

Deep inside of our hearts beat sounds of heavy metal  
We are ready to die between stars  
Join the Army of Light and never be forgotten  
We are ready to strike

Even in the skies I will cover you  
By the drawings on our hands my magic be with you

So you look into the darkness  
You'll find rage and madness  
We'll bring the Light for the Kingdom of Lies  
With pure metal in our hearts

I'll possess your mental power

Taking the last breath in your final hour  
You'll fight! You'll die!  
You'll never touch the Light  
Fifth element brings the sun

Join the Army of Light and never be forgotten

Deep inside of our hearts beat sounds of heavy metal  
We are ready to die between stars  
Join the Army of Light and never be forgotten  
We are ready to strike

Metal is eternal  
Like Earth, Fire, Wind and Water  
Fifth element in the space-time  
Ultra power for my brain.
