

Cyst Excise

Pathology

As I lye awake
Skin on a cold table
This drug - I cannot move

Sight and
Nerves intact
A cut starts to bleed
Clamping - Cyst excise

Metal forcing
The wound open
A Cyst excise
Echinococcosis
A Cyst excise
Cycles begin
Infecting the host
Echinococcosis
A Cyst excise

Cyst excise
Parasites
Infect

Intestinal tracts produce edgs
Which are expelled through

Vomit enters through saliva
Enter shock as they rupture
Intestins
Rupture
Producing edgs

Definitive hosts excise

Definitive hosts are
Carnivores
