

# Clouds

Patrice

Last night when I went to bed  
I wrote this letter in my head  
I was too spaced out for you to reach me  
I use to teach you now you teach me  
I never thought that you were gonna realise  
what you had inside so now i`m well surprised

They say my head is in the clouds  
They say my head is in the clouds  
cloud nine to be precised.

(you see)The world is turning on  
and some things are  
just the way they are, they are

The world is turning on  
and some things are  
just the way they, just the way they are.

I take the best words that come to my mind  
the nicest melody that I can find  
I write the greatest song that I can write  
To bring you back into my life  
Back then god had sent me to make you angry  
To send you on your journey  
Cause there were things you had to learn

They say my head is in the clouds  
They say my head is in the clouds  
cloud nine to be precised.

You see The world aint in this world  
You see The world aint in this world  
cloud nine to be precise

The World is turning on  
and somethings are  
just the way they, just the way they are

I turn my back on this  
It wouldnt change a thing  
It`s just the way it is  
You couldn`t change a thing

It`s been from ever since  
From before time begins  
I surrender all there is  
There`s no Joy like this again

you take all my songs  
I wrote them for you  
See I didn`t know  
I thought I only knew

You were invisible  
Now your visible  
Was too blind to see

Like the sun it dawned on me

(you see)The world is turning on  
and some things are  
just the way they are, they are

The world is turning on  
and some things are  
just the way they, just the way they are
