

5 Days

Patrick Nuo

It was love at first sight
On the second of July
Met her on the third floor
Four times in one night
It was a little bit of magic
And the time stood still
She took me to another side
She got the key to my will
Tell me how could such a good thing only last

One two three four
Five days
Once in a lifetime
Five nights
Too good to be true
The universe is passing by
But I can't forget our
One two three four

Five days-sunshine-one-way-trip
Where she touched my soul when I touched her lips
She said: "Boy take me to wherever you go"
Destination anywhere
But destiny said no
Tell me how could such a good thing only last

One two three four
Five days
Once in a lifetime
Five nights
Too good to be true
The universe is passing by
But I can't forget our
One two three four

Five days
Once in a lifetime
Five nights
Too good to be true
The universe is passing by
But I can't forget our
One two three four

Five days
Can't you hear me?
Five nights
From where you are?
Five days
Can't you feel me?
Five days
You're still my love

It was so great when we were together baby
So great when we were together
It was so great when our days were endless baby
So great when we were together
Tell me how could our forever only last

One two three four
Five days
Once in a lifetime
Five nights
Too good to be true
The universe is passing by
But I can't forget our
One two three four

Five days
Once in a lifetime
Five nights
Too good to be true
The universe is passing by
But I can't forget our
One two three four

Five days
Can't you hear me?
Five nights
From where you are?
Five days
Can't you feel me?
Five days
You're still my love

It was so great when we were together baby
So great when we were together
It was so great when our days were endless baby
So great when we were together
