

## 5 Days

Patrick Nuo

It was love at first sight  
On the second of July  
Met her on the third floor  
Four times in one night  
It was a little bit of magic  
And the time stood still  
She took me to another side  
She got the key to my will  
Tell me how could such a good thing only last

One two three four  
Five days  
Once in a lifetime  
Five nights  
Too good to be true  
The universe is passing by  
But I can't forget our  
One two three four

Five days-sunshine-one-way-trip  
Where she touched my soul when I touched her lips  
She said: "Boy take me to wherever you go"  
Destination anywhere  
But destiny said no  
Tell me how could such a good thing only last

One two three four  
Five days  
Once in a lifetime  
Five nights  
Too good to be true  
The universe is passing by  
But I can't forget our  
One two three four

Five days  
Once in a lifetime  
Five nights  
Too good to be true  
The universe is passing by  
But I can't forget our  
One two three four

Five days  
Can't you hear me?  
Five nights  
From where you are?  
Five days  
Can't you feel me?  
Five days  
You're still my love

It was so great when we were together baby  
So great when we were together  
It was so great when our days were endless baby  
So great when we were together  
Tell me how could our forever only last

One two three four  
Five days  
Once in a lifetime  
Five nights  
Too good to be true  
The universe is passing by  
But I can't forget our  
One two three four

Five days
