

# Watchin' Over You

Patrick Nuo

I'm half a dream away  
When it's all too bad  
You can count on that  
In the darkest place  
There'll be always a trace

Drive down this windin' street  
When you go for broke  
I just wish and hope  
That the luck you seek  
Is the luck that you need

Uuuuh when things just fall apart  
Uuuuh when any cure is hard to find  
Just keep in mind

All the time there's a guidin' light  
And it's not gonna fade  
It's at your side forevermore  
Watchin' over your way

Through the night and the desperate days  
At the end of a shade  
There's a light forever and ever and ever and ever to stay  
Watchin' over your way

Try - try to fight the cold  
When surrender's near  
Something will appear  
Waitin' at the road  
To help you carry the load

Uuuuh when things just fall apart  
Uuuuh when any cure is hard to find  
Alle Just keep in mind

It's there whatever you do  
Watchin' over you
