

Big Hype

Patrick Stump

Big hype
Big letdown
Though it's easy to forget if they keep you on the
ground
Don't count on your good fortune
Just make your fortune count on you
Yeah, make your fortune count on you

I have tried, I have failed
Every cent, you scared the sailor
I am sane
But the only souvenir I return with is never, never,
never trust big hype
No, never, oh

I have love, I have lost
I have made my way but also paid the cost
Though I wouldn't trade a lesson
The impression I wish to leave is never, never, never
trust big hype

Big letdown
Though it's easy to forget if they keep you on the
ground
Don't count on your good fortune, baby
You make your, make your fortune count on
You make your fortune count on you
You make your fortune count on you, oh

I have love, I have lost
I have made my way but all so paid the cost
Though I wouldn't trade a lesson
The impression I wish to leave is never, never, never
trust big hype

Big letdown
Though it's easy to forget if they keep you on the
ground
Don't, don't count on your good fortune, yeah yeah
You make your, make make make your fortune
Make your fortune count, oh

Big hype
