

Coast (It's Gonna Get Better)

Patrick Stump

It's gonna get better, it's gonna work out
Give it a minute, it's gonna turn around
'Cause it's gonna get better, better
It's gonna get better, better

So just coast with me
So just coast, coast
So just coast, coast with me
So just coast, coast
So just coast, coast

Maybe I'm too young to be so hopeless
Maybe I'm too young to be so bitter
But I swallowed life lessons by the joke-full
And came away looking like a quitter

I'm singing,
I keep making mistakes
But it takes some time to get anything right
You know that I keep making mistakes
But it takes some time to get anything right

'Cause it's gonna get better, it's gonna work out
Give it a minute, it's gonna turn around
'Cause it's gonna get better, better
It's gonna get better, better

We're gonna keep living
We're gonna get by
We never have to lay down and die
'Cause it's gonna get better, better
It's gonna get better, better

So just coast with me
So just coast, coast
So just coast, coast with me
So just coast, coast
So just coast

It's funny how triviality[?] nearly broke me
But tragedy seemed to put me back together, yeah

I keep making mistakes
But it takes some time to get anything right
You know that I keep making mistakes
But it takes some time to get anything right

'Cause it's gonna get better, it's gonna work out
Give it a minute, it's gonna turn around
'Cause it's gonna get better, better
It's gonna get better, better

We're gonna keep living
We're gonna get by
We never have to lay down and die
'Cause it's gonna get better, better
It's gonna get better, better

So just coast with me

Life's already been hard enough
Without you giving up on yourself
When you're down at the bottom
You know it only gets better

It's gonna get better before it gets worse
We never have to come back to Earth
'Cause it's gonna get better, better
It's gonna get better, better

We're gonna keep living
We're gonna get by
We never have to lay down and die
'Cause it's gonna get better, better
It's gonna get better, better

'Cause it's gonna get better, it's gonna work out
Give it a minute, it's gonna turn around
'Cause it's gonna get better, better
It's gonna get better, better

We're gonna keep living
We're gonna get by
We never have to lay down and die
'Cause it's gonna get better, better
It's gonna get better, better

So just coast with me
